PROJECT MANAGER · CIVIL ENGINEER

PROFILE

Civil engineer (M.Sc., Road Engineering) and project manager with 15+ years in construction, infrastructure and operations, in Peru and the United States. Managed the contracts of three public works worth about $192M with 1,800+ workers on site, led road construction and maintenance portfolios and delivered four clinics on time and within budget. Known for turning complex goals into owned, measurable projects, with the tracking and automation that keep them honest. Bilingual English and Spanish.
